

Drying oven

- Rapid rise in temperature (70°C in less 5 minutes)**
- External dimensions 1200x900x1800mm open / custom made possible
- Drying volume: 1000 x 400 x 400mm
- Full stainless steel structure / robust
- Easily transportable mobile system / possibility of fixing to the ground
- Closed-circuit hot air system to prevent heat loss and external heat distribution
- Oven calibration report provided
- Model with vertical opening with pneumatic cylinder
- Electrical control and safety cabinet included and integrated

Drying oven

- ❑ Temperature setpoint regulation up to 70 ° C
- ❑ Adjusting drying times
- ❑ Control and regulation thermostat
- ❑ Temperature measurement accuracy: <math><0.5\text{ ° C}</math>

- ❑ Adjustable safety temperature → Oven locked when temperature is higher
