

10 Hz Low Frequency Yoke Kit

Available in 3 versions:

- ❖ 230V mains version
- ❖ Battery version (1000 testing cycles autonomy)
- ❖ 230V mains and battery version

Power supply case packaging:

- ❖ Dimensions: 555 x 428 x 211 / Battery version weight: 12 kg
- ❖ Reinforced polypropylene structure / shock-proof walls
- ❖ IP66 certified (protection against dust and liquid projection)

Advantage of low frequency operation:

- ❖ Reduction of the operator's exposure to the magnetic field by a factor of 5 - in accordance with European Directive 2013/35 / EU
- ❖ Increased penetration depth of magnetic field lines: increased detectability by improving the contrast of the indication

Battery version:

- ❖ Autonomy 1000 magnetization cycles from 3 to 4 seconds
- ❖ Charging time: 5 to 6 hours
- ❖ Easily replaceable Lithium Ion batteries (long equipment life)

Can also be used with magnetization / degaussing coil
