

Magnetic particle testing kit

Standard kit

Standard kit including:

- ❖ A CMAG yoke (weight 2.4 kg)
- ❖ A magnetization / degaussing coil - inner diameter 120mm
- ❖ Spirit UV lighting - 2 UV LEDs / 1 white light LED
- ❖ A PHYTECH meter combining magnetic field measurement, luxmeter, 365nm UV radiometer
- ❖ Black and fluorescent magnetic liquor aerosol, white contrasting background, cleaner
- ❖ Transport case

Ultra light and handy

Available in 3 versions:

- ❖ Standard version 230V mains
- ❖ Battery version (1000 pulses of 3-4 seconds autonomy)
- ❖ Mains and battery version

Available in 50 Hz and low frequency 10 Hz version

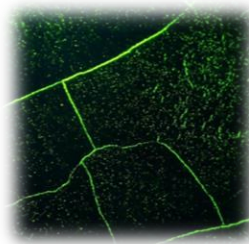

Expert kit

Expert kit including:

- ❖ A CMAG yoke (weight 2.4 kg)
- ❖ A magnetization / degaussing coil - inner diameter 120mm
- ❖ UV camera lighting - 3 UV LEDs / 1 white light LED
- ❖ A PHYTECH meter combining magnetic field measurement, luxmeter, 365nm UV radiometer
- ❖ Black and fluorescent magnetic liquor aerosol, white contrasting background, cleaner
- ❖ Transport case

Available in 3 versions:

- ❖ Standard version 230V mains
- ❖ Battery version (1000 pulses of 3-4 seconds autonomy)
- ❖ Mains and battery version

Available in 50 Hz and low frequency 10 Hz version
